GIS Day 2012 for Managers

Event Information

Wednesday, November 14, 2012
9:00am to 12:00pm
Los Angeles County Department of Public Works Headquarters
900 S. Fremont Ave
Alhambra, CA 91803
Website: http://gis.lacounty.gov/gisday

What is GIS?

Geographic Information Systems (GIS) are powerful software technologies that allow vast amounts of information to be linked to geographic locations.

What is GIS Day for Managers?

The GIS Day Committee has developed a special half-day track for County managers who want an introduction to GIS and learn how it can support their operations. This track will focus on providing a non-technical understanding of GIS and show how GIS is used across the County to improve the efficiency of departmental operations.

Who should come?

The audience for this track is managers who have heard of GIS, but would like to learn more about it and how it can help their operations. The complete GIS Day event (9:30am – 3:30 pm) is open to any other County employees.

How do I reserve a spot?

You can reserve a spot here: http://gis.lacounty.gov/eGIS/gisday/manager-track
