**Describe Problem or Map anomaly in detail.**

Several areas on surface of the lake with drastic tone differences. Seamlines are clearly visible, and doesn't pass the "mayor's test". Surface of lake is also pixilated.

**PASTE SCREENSHOTS HERE:**

**LA County's response to the Problem:**

DRP will fix this issue in Photoshop using the image manipulation tools available to balance the tones and soften the edges of the seamlines. Pixelization may be a more challenging issue to fix.
