

## What's New With Pictometry in 2008 and Beyond...

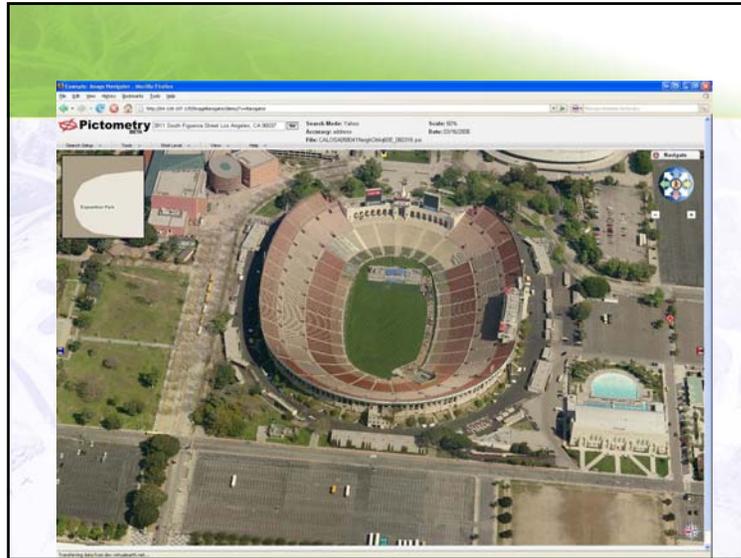

## Overview

- Image Navigator
- Web EFS
- Integration with More Applications
- More Products
  - Certified Orthos
  - Digital Terrain Data
  - 3D Models

## Image Navigator

- Similar to 'virtual earth.'
- Can integrate with ArcGIS Server and Google Earth or Yahoo Maps
- Based on newer (web based) technologies

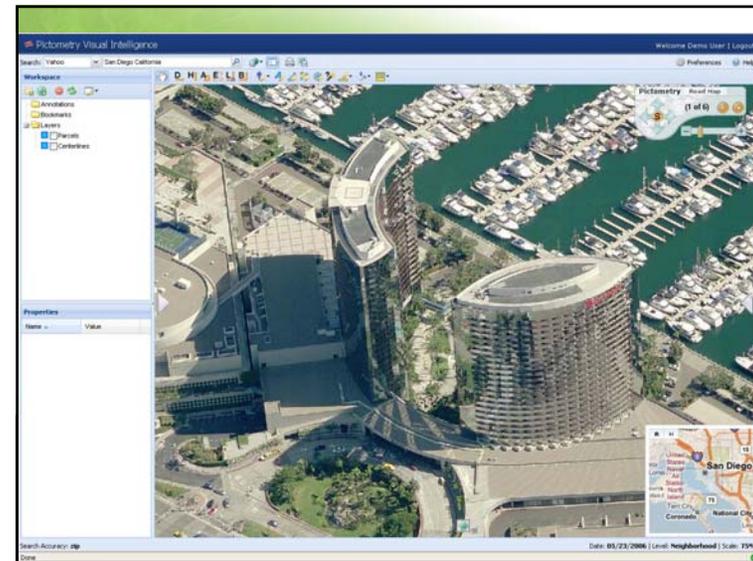

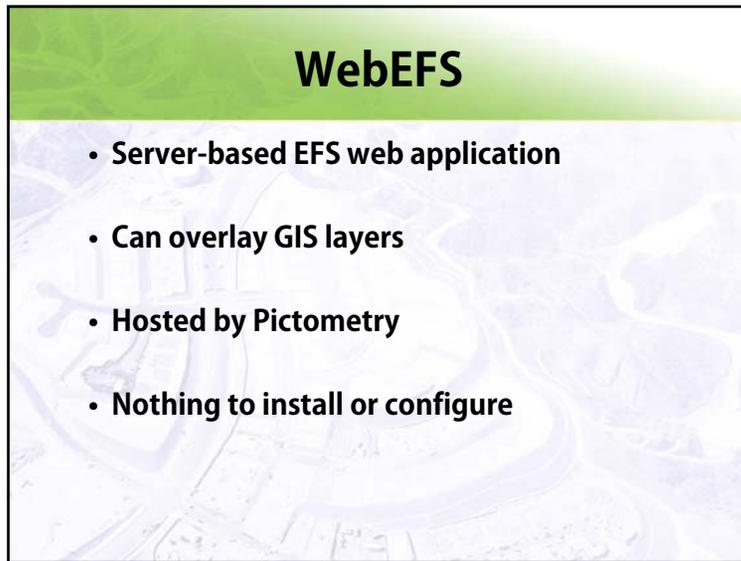

## Image Navigator Demo

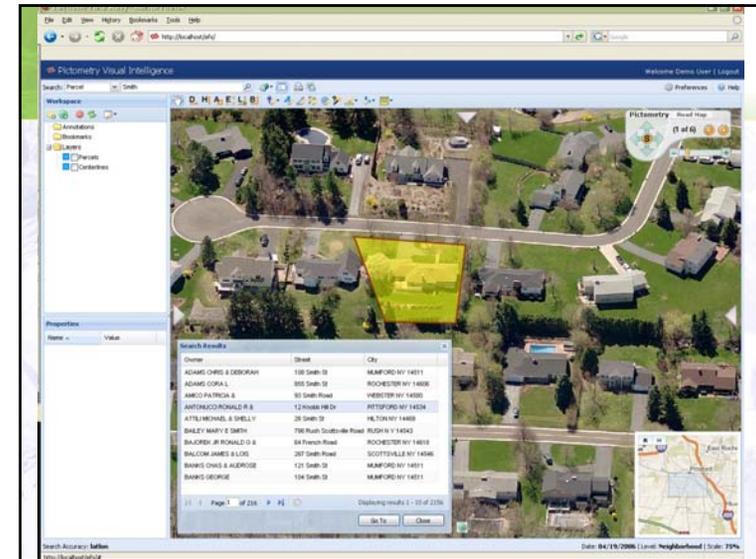

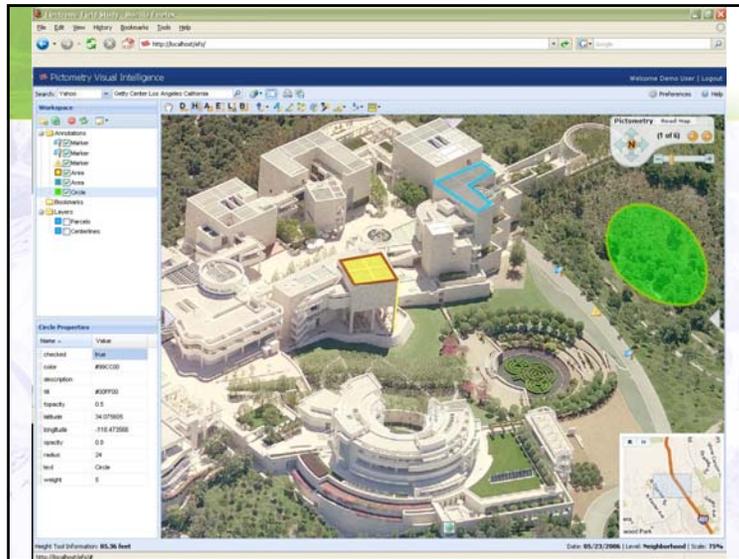

- <http://64.128.107.125/ImageNavigator/demo/?v=Lariac>

## WebEFS

- Server-based EFS web application
- Can overlay GIS layers
- Hosted by Pictometry
- Nothing to install or configure

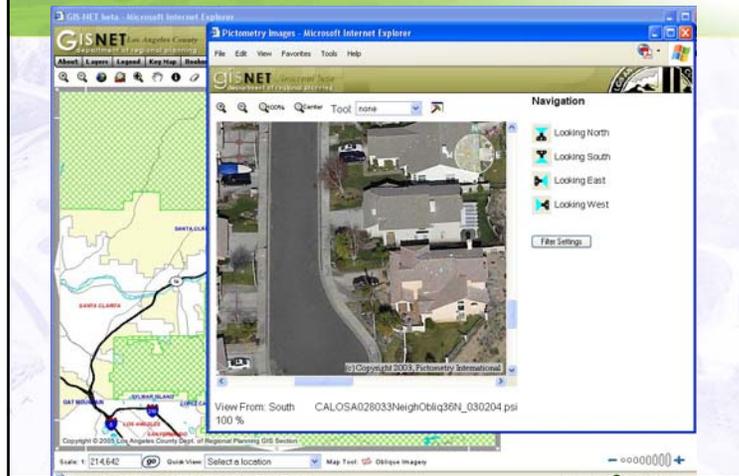

## Notes About Image Navigator and Web EFS

- Not actual products yet
- Supposed to be out by the end of Q1 and Q2 of 2008 respectively
- Not included in LAR-IAC or LAR-IAC2 pricing (because no cost/price set yet)
  - \*But will probably be added (when costs known); if participants want them

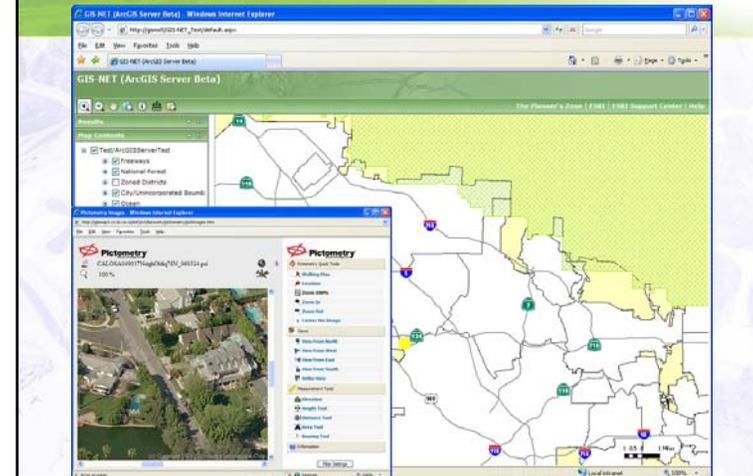

## Integration with More Applications

- ArcIMS
- ArcGIS Server
- ArcGIS Explorer
- Other software applications (I don't have specifics but I know they can do this)

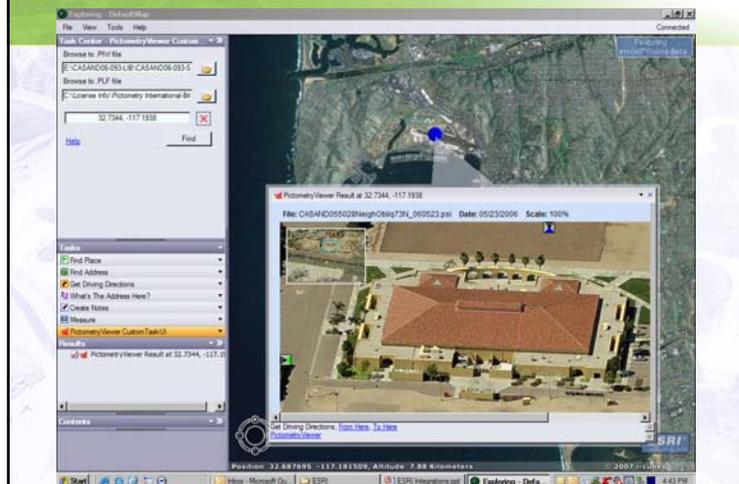

## ActiveX & ArcIMS

## ActiveX & ArcGIS Server

## ActiveX & ArcGIS Explorer

## More Products

- Certified Orthos
- Digital Terrain Data
- 3D Models
