Pictometry Online
Key Features

Los Angeles County
**Dept. of Regional Planning**
GIS Section

March 19, 2009

The Login

- A user name and password will be provided.

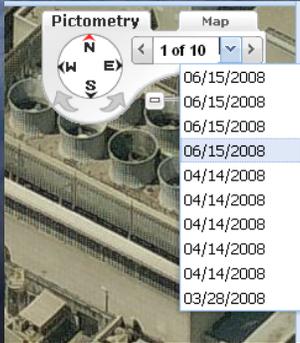

The Look

- Same imagery, new web layout
- Similar functionality as EFS

Tools

- Many of the common EFS tools are in Pictometry Online
  - Searches
  - Distance
  - Height
  - Area
  - Elevation
  - Query
  - Annotation (Text, icon, line, etc…)
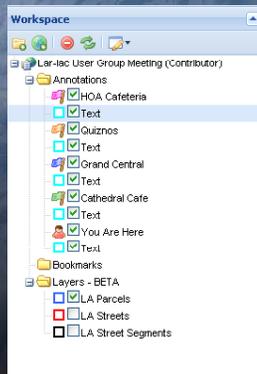

Image Selection

- Images can be selected according to the date they were captured

Preferences

- Several options can be set to customize the Pictometry Online Experience

Workspace Table of Contents

- The annotation and GIS layers are displayed on the left side in the workspace window

- Annotations and GIS layers are kept in separate groups
