

LARIAC - 2014 Pictometry Training Registration

Early this year, Pictometry captured new aerial imagery for Los Angeles County. This imagery is viewable through their online software, known as Pictometry Online (POL), through custom integrations with existing software and through new mobile applications. Below are links to free trainings offered by Pictometry, conducted by a Pictometry representative. The trainings will be offered over the internet via GoToWebinar and are free to our users. Please review the class descriptions and then click on the link to register for a class. All sessions are 2 hours in length and are listed in PDT. Additional documentation is available upon request.

CONNECT Administration Training

This class is designed for the administrator(s) of your Connect Account. This session will discuss the organization structure, creating and managing users, and uploading/configuring/sharing GIS data as layers and searches. You must have CONNECT administrative credentials to attend this webinar.

Thursday, October 2, 2014 10:00 AM –12:00 PM
