

GIS Day 2008

November 19 (10:00 am - 2:30 pm)

The County of Los Angeles will host **GIS Day 2008** to demonstrate the many ways **Geographic Information Systems (GIS)** support a wide variety of County services.

- Learn how we use GIS technology today and how it is developing
- Walk through our map gallery and peek into GIS-equipped vehicles
- Play our GIS game

Join us for this fun and informative event!

* Coming soon - information on public transportation and lower cost parking in the area
