

GIS DAY 2012

“GIS -The Power of Location”

Wednesday, November 14, 2012

9:00 AM - 3:30 PM

County of Los Angeles Public Works Headquarters

900 S. Fremont Ave, Alhambra, CA 91803

For more info:

<http://gis.lacounty.gov/gisday>

Geographic Information Systems (GIS) uses the power of technology to locate, map, organize and manage places, people and data.

GIS Day offers an opportunity to showcase how Los Angeles County and more than 30 other agencies are using this GIS technology to make government more efficient, keep you safe and improve health.

This year, **GIS Day** will feature a Managers' session, training opportunities, map gallery and GIS games & prizes. You'll learn how:

- Managers can leverage GIS technologies
- Local universities are using GIS in research
- GIS facilitates elections
- GIS is used in Sheriff's vehicles
- GIS is used in Fire Trucks and by firemen during fires
- GIS is used for traffic management
- GIS is used in emergency vehicles

Directions to Department of Public Works (DPW) Headquarters:

- From the 10 East/West freeway
 - Exit Fremont Ave (go North)
 - Turn right at Orange St
 - DPW Headquarters is on left
 - Free parking** at Albertsons on Commonwealth Av
