Nick Franchino, GIS Manager, Regional Planning Dept.

nfranchino@planning.lacounty.gov (213-893-0881)

Topics We'll Cover:

1. What is LARIAC ?
2. What Products and Services Are Available?
 - Oblique Imagery (4" & 9" resolution)
 - Ortho Imagery (4" and 12" resolution)
 - Building Representations (Outlines) of LA County
 - Digital Terrain Datasets
 - Imagery Deployment Options (ESRI environment, Easy to Use Viewers and other 3rd party integration options.)
 - Independent QA/QC for all imagery and data products
3. What Are the Benefits of Joining LARIAC?

Due to current economic restraints; interoperability and cost sharing of a product or service has become a vital requirement of County, Municipal and public agencies. [Come learn how these data sets can benefit your entire organization with potentially a tremendous discount by pooling resources.](#)
