9:00am – 3:00pm

LA County GIS Day
"Mapping LA County"

Come to the County's largest GIS Day event to discover how Geographic Information Systems (GIS) leverages the power of technology to locate, organize and manage places, people, data and mapping in LA County. You'll learn how:

- People are connected to County services
- Managers implement GIS technologies
- Local universities use GIS in research
- GIS facilitates elections
- The Sheriff uses GIS in emergency vehicles
- GIS is used in fire trucks and by firefighters for response
- GIS is utilized for traffic management

Jack approves this GIS Day event!
